

Second educational event dedicated to teachers

Overview	
Date	25.02.2021
Venue	ZOOM platform
Aim of the event	Discussion on organization of educational events for students, presentation of the general presentation and its adaptation according to the specific needs of teachers and students.

Short resume

The Strumica region is part of the BE-Rural project funded by the "Horizon 2020" program of the European Union. The project aims to bring the concept of bioeconomy closer to the stakeholders in the region, to map the opportunities and potentials of the region, as well as to develop roadmaps and strategies for bioeconomy development.

In order to organise the educational events for students from primary and secondary schools in the Strumica region, the second working educational event with teachers from primary and secondary educational institutions was held on 25.02.2021 starting at 13:00 via ZOOM platform. The event was attended by 6 participants. The topic of the event was „Organization of educational events for students”.

The initial part of the event explained the concept and ideas of BE-Rural in order to introduce teachers to the goals of the project. Participants were informed about the available educational materials and opportunities for their application in existing educational programs. The introductory presentation was shown at the event, which covers the main aspects from the educational materials related to bioeconomy. In the second part of the webinar, a discussion was developed on how to organize events for students.

During the next week, the teachers will work on adaptation on the presentation to the needs, level and interest of the students. Bilaterally, that information will be shared with the members of SDEWESSKopje, together with information on the structure and time of organizing the first event with the students in March. Given the current pandemic situation, the educational events will be organized virtually, with the possibility of replication onsite when better circumstances will be established.

Participants			
No	Name	Surname	Organization
1	Natasha	Markovska	SDEWES-Skope
2	Emilija	Mihajloska	SDEWES-Skopje
3	Ljupcho	Dimov	SDEWES-Skopje
