

EDUCATIONAL EVENT NO. 2 – PRESENTATION OF EDUCATION MATERIAL Highschool students in Nowy Dwór

Overview

Date	05.03 2021
Location	Nowy Dwór
Aim of the event	Familiarization of school students with the principles of circular bioeconomy. Promotion of the project and the UN SDGs.

Short summary

The lesson was planned to be organized as a one-time meeting in one of the second-year classes. The teacher prepared their own version of the presentation, covering an explanation of SDGs and introduction to circular bioeconomy. She planned to spark interest in the students with the topic by playing the game with them too.

The teacher reported a strong interest from the students and was able to adapt the presentation to the class Tourism Organization Technician and the context of using eco-products in tourism. The students expressed the most interest in the process of making, for example, edible straws, shoes made of pineapple, or paper made of elephant droppings. The games were widely enjoyed and it appeared that the interaction in the classroom was a good introduction to the circular bioeconomy. Declaration of preparing more lessons and reactions from young people shows good results of such events.
